

1. ROSI BMS

r | o | s | i |

ROSI BMS (BMS = Background Music Software) is a multi-channel music player which comes with a professional music planning intelligence.

With this software, we are able to schedule music for cruise line ships with up to 60 individual zones. It provides functionalities like the override player that enables the broadcast engineers to play one (or several sound files) synchronized on the entire ship.

ROSI BMS is the worldwide market leader and is installed on more than 170 cruise line ships.

2. SMUSIC

||| SMUSIC

SMUSIC is EBH's latest software development.

Is it a mobile app that lets your guests play with the music at the pool, in special lounges, etc.

SMUSIC is a game. Round one: search for music tracks, artists and select your favourite song.

When 20 tracks are selected, round two starts. Now your guests can vote for the tracks.

After 120 seconds, the five winner tracks are shown on the display and our software will play them automatically over the PA system.

3. ROSI DJ/MEDIA

r | o | s | i |

EBH offers another special ROSI version for DJs and entertainers. ROSI DJ/MEDIA is delivered with four independent players. They do not only play music- but also video- or karaoke-files.

ROSI DJ/MEDIA can be used on a laptop and an external sound card. EBH delivers ROSI DJ/MEDIA on request with up to 20.000 sound files (weekly updated), 4.000 video clips and up to 80.000 karaoke files. It guarantees amazing night shows!

4. Concert videos for cruise ships

Many cruise ships have large video screens at the pool and other areas but not the right content for them.

EBH offers content with concert videos of world famous artists and bands.

Are you thinking about presenting the „Concert of the day“ every day at 3pm (at the pool) and giving your guests 90-120 minutes of the best music?

Pop, Classical or Ballet — EBH provides all genres — in total more than 4000 concerts. It comes with a yearly subscription fee.

EBH Radio Software

5. Synthia

Synthia

This is our high quality synthetic voice for standard announcements in up to 35 different languages. Each month more!

This „text-to-speech-software“ will enable you to type a text and to play it sequentially in different languages instead of reading it live from the bridge. Just write the messages, store it and replay within seconds whenever needed.

The quality of **Synthia** is so amazing that radio stations are already using this tool as a „newspeaker“ in their broadcast shows.

6. Audio- & Video-on-Demand for the cabins

Audio-and Video on Demand is a service for the TVs in the guest cabins.

Guests can choose the music or concert videos in their cabin by genre, decade, gender and tempo.

More than 4.000 concert videos for Video-on-Demand available (Pop, Jazz, Classic, Ballet)

More than 100.000 songs for Audio-on-Demand available.

Ask also about our new service **Video-to-go!** A license to play concerts on public monitors.

7. Your own Cruise Radio on the Internet

Extend the stay of your guests with your own **Cruise Radio**. One channel for all ships is enough!

Broadcast the latest offers and good news about new itineraries, new ships and all important messages!

This internet radio accompanies your guests all over the year—until the next booking.

EBH Radio Software — the company
